RECRUITING POSTCARDS
ATTENTION: HIGH SCHOOL AGE PLAYERS

Recruiting postcards are now available through JBS Sports Productions. These postcards are a great way to introduce players to colleges along with sending schedules, info, ect.

One of the reasons they are so effective is they are visual, meaning when the coach goes through a stack of letters and manilla envelopes, these postcards catch their eye and they are more likely to remember a name after a postcard they took time to look at. I have talked to a few coaches who have specifically noted postcards they had seen with Blaze players on them.

The front of postcard is for basic info and to grab attention. The back is for address/return address and the team schedule so coaches know where the player will be this Fall.

Pricing is available at www.jbssports.net

You will need to provide two pictures--- a head shot & action shot.
